

how can she escape

lyrics

music & lyrics: andy enroe

main 1

She walked that way – it was on a **green island**
It was her own choice – it was what her father didn't like

She had had a wrong friend – it was Mike the mechanic
It was Carol the beauty – it was what her father didn't like

But there he is – his image still in her mind
He's always there – he's like a ghost

pre-ch 1

And she can't avoid – thinking of him
Because she's addicted to him

chorus

How can she be **cured** – and how can she **escape**?
How can she **float** – and how can she be **tough**?

How can she ... – in tears **above all ...**
How can she **forget him** – how can she **start again**?

Ho-o-ow?

main 2

She can't deny – that she loves him
Though so **many – contrary feelings**

She can't deny – but she thinks about his decisions
You got to study first – he said,
You got to be careful – he said

But there he is – his image still in her mind
He's always there – he's like a ghost

pre-ch 2

And she can't do anything than thinking of him
She is obsessed – she is so ill

chorus

How can she be **cured** – and how can she **escape**?
How can she **float** – and how can she be **tough**?

How can she ... – in tears **above all ...**
How can she **forget him** – how can she **start again**?

Ho-o-ow?

bridge

And so the god said:
“Oh girl, this is a pretty – difficult situation
Is this a nightmare – or is this a pleasure?”

Is this a nightmare – or is this a pleasure?”

a nightmare ...

chorus

How can she be **cured** – and how can she **escape**?
How can she **float** – and how can she be **tough**?

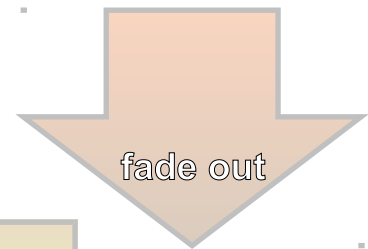

How can she ... – in tears **above all ...**
How can she **forget him** – how can she **start again**?

chorus last

How can she – how can she **escape**?
How can she – how can she **be tough**?

How can she – how can she **escape**?
How can she – how can she **start again**?

How can she – how can she **escape**?
How can she – how can she **be tough**?
