

parklane street

parts & lyrics

guitar hook

main 1

Bobby carefully places his chairs – every evening he opens his studio
Emily walks along – no raindrops can stop her

John arrives from his office – his presentation was ok
But there was a grim in his face – around his lips – around his lips

chorus

When I walked down through parklane street
I see the same mugs again
It's the look of these faces
Who gave me the spirit of the magic night

main 2

And the first all-day party heros – entered our little park
Right beside parklane street – colourful dim grimaces

Far away from everyday pain – like a distant light in the tunnel
Like an entrance to a new world

chorus

When I walked down through parklane street
I see the same mugs again
It's the look of these faces
Who gave me the spirit of the magic night

guitar hook

main 3

Dancing in our little park – haunting figures and coloured frames
Somewhat unreal ... like an imagination – like a new picture

deep vocs

This is a magic night – and this is a magic, magic night
This is a magic night – and this is a magic, magic night
And this is a magic night – and this is a magic, magic night
And this is a magic night – and this is a magic, magic night

chorus

When I walked down through parklane street
I see the same mugs again
It's the look of these faces
Who gave me the spirit of the magic night

guitar hook
