spread across the planet
and cover the information space

and never-before-seen connections

Derrin floats in abstract space
Derrin sees himself in symmetry

Everyone claims the resources – all resources

Derrin enters the field – of unknown entities
and never-before-seen connections

I power to I – what does that mean?
Euler is always everywhere
Einstein is always with us
Will we see each other – in the Planck world?

of unknown entities
and never-before-seen
connections – connections

Derrin enters the field –
of unknown entities
