

# rainbow

## parts & lyrics

### main 1

He looked me into the eye  
"It could be ready in a fortnight"

He sounds a bit like a car sales man  
who sees even the last metal-box as a real state car

### pre-chorus

Because you see things  
that I don't see

### chorus 1

Because things are hidden  
behind a bend in the road  
And why do we only  
see the rainbow in rainy weather?  
Is it visible for us?  
See the rainbow at the horizon!

### Monks

**D**o you see the **r**ainbow?

## main 2

He says in deep conviction  
that he has everything “under control”

He sounds like business man  
who ends up in prison because of shady dealing

## pre-chorus

Because you see things  
that I don't see

## chorus 2

Because things are hidden  
behind a bend in the road  
And why do we only  
see the rainbow in rainy weather?  
Is it visible for us?  
See the rainbow at the horizon!

## interlude

cello + string staccs

How are things really?  
I've been wondering that for a thousand years

Is it better to see everything  
completely realistically?

## chorus 3

Because things are hidden  
behind a bend in the road  
And why do we only  
see the rainbow in rainy weather?  
Is it visible for us?  
See the rainbow at the horizon!

## solo

e-guitar

#### chorus 4

And why do we only  
see the rainbow in rainy weather?  
Is it visible for us?  
See the rainbow at the horizon!

Because things are hidden  
behind a bend in the road  
And why do we only  
see the rainbow in rainy weather?
