

# We fly to the moon

parts & lyrics

## main 1

Welcome to the future now  
We will show you where you'll go  
It's a new time of extremes  
You won't know what is true and what's fake

But what I can disclose: Future will be sweet and easy  
You will be runnin' through a field of sunflowers

## pre-ch

You are free in a virtual world  
But roped in the real world

## chorus 1

We fly to the moon – and to mars  
We'll have all the robots – that serve us day and night

## main 2

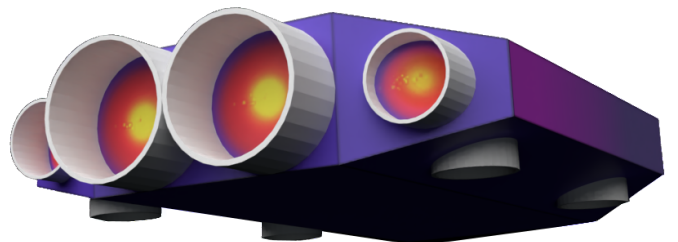

Hoohaaa yeahea – yeahyeayeahaa  
Hoohaaa yeahea – yeahyeayeahaa

Artificial intelligence – they will tell you what you've to do  
It's a new time of extremes  
You won't know what is true and what's fake

And yes they will define – everything for you

## pre-ch

You are free in a virtual world  
But roped in the real world

chorus 2

We fly to the moon – and to mars  
We'll have all the robots – that serve us day and night

interlude

Twenty-sixty, twenty-seventy, twenty-eighty, twenty-ninety, ...

We walk through space  
We walk in the park

Of an abstract room ----- **of an abstract room**

chorus 3

We fly to the moon – and to mars  
We'll have all the robots – that serve us day and night

chorus 4

Roaming in the future  
Drifting in our fate in our fate  
Can we still decide how the world will be how the world will be

chorus 5

We fly to the moon – and to mars  
We'll have all the robots – that serve us day and night

outro

We fly to the moon – a n d t o m a r s
